

MATERIAL HANDLING CRATES & BINS

Product Catalogue

Handle without care

Founded in 1942, Supreme is an acknowledged leader of India's plastics industry. Handling volumes of over 125,000 MT of polymers annually, effectively making us the country's largest plastics processor.

Not surprisingly, we also offer the widest and most comprehensive range of plastic products in India. Our 19 advanced plants are powered by technology from world leaders, and complement our extensive facilities for R & D and new product development. We are seeking to perform strongly internationally as well. Exports remain a focal area of our operations, even as we add newer markets to our list worldwide.

Supreme crates are manufactured using computer designed moulds, at the company's eight injection moulding facilities across India —with technology from Schoeller Arca Wavin Systems International Services GmbH & Co. KG of Germany. Our Multi location plants help easier access, and faster delivery of products.

Among India's best known brands, Supreme crates are one of the company's focused and promising product line. Product range is extremely comprehensive, stretching from small to super jumbo crates, and from standard to tailor made models. Lightweight yet highly durable, food grade, weatherproof and UV resistant, Supreme crates are suitable for versatile applications. These are ready for use in industries as varied as electronics, engineering, automotive, textiles, fisheries, fruits and vegetable handling, soft drinks, dairies, Bakeries and many more.

Supreme Custom Built Crates

To provide tailor made solutions for material handling, the crates are fabricated as per the specifications of component /material with HDPE sheets and or various foams , pp sheets, Frequently used in automobile and electronics industries.

Supreme Crate Accessories

Accessories are hands on additional components for supporting fabrication in value added crates, with help of accessories supreme provides tailor made solution for varying needs of our customers.

Supreme Anti-Static & Conductive Crates

Supreme offers complete range of Conductive and Anti-Static crates. The use of highly specific additives ensures permanent conductive properties. All models are available on order. Highly recommended for electronic, data processing & electrical Industries

Other Products

For last 50 years it has been our commitment to excellence in quality, services and innovation: No wonder we have been equally supported by our customers in India and abroad as well. Material handling requires a comprehensive assessment and economic viability for extensive logistics flow. We promise to add value in your efforts by lending a supportive hand with our crates, bins, pallets, dustbins and many other innovative solutions in coming times
