Food & Beverages

Electrical & Consumer Goods

Over the years new technologies in packaging industry & revolutionary solutions made product handling, movement, shipment & storage easier and boosted the development in every industrial growth.

To give optimum solutions to material handling & encouraging the re-usable packaging products, Heramb introduced "Eco-Pal".

Eco-Pal is one such solution which contributes to the growth chart of your industrial path.

Eco-Pal products are reusable & recyclable, it also enables complete customization with wide range of attributes like size, thickness, color & branding.
